

Skärgårdsleden

Tour examples starting from Pensionat Solgården in Grisslehamn

Here we present five cycling tour alternatives starting from Grisslehamn on northern Vädö.

Day trip to Singö – Svartklubben's pilot station

This tour takes you over three bridges and across the islands of Kolskäret, Fogdö and Singö. From the pilot station you can enjoy a magnificent view over Svartklubben's lighthouse station, Understen lighthouse, and when in fine, clear weather you might even see the outermost islands of northern Åland. We provide you with a picnic lunch, cycling map and hints on cycling roads and fine bathing cliffs.

Day trip to northern Singö

This tour is for you who want to cycle a lot. You make a detour on Fogdö via Fogdö old steamer-ship jetty. Follow a beautiful sand road through genuine archipelago landscape with beautiful stone walls, farmyards and scents of flowers.

On Singö you can cycle a detour via Tranvik village to the pilot station and enjoy the beautiful sea view. The route continues through Backbyn village and further on sand roads along the Ålands Sea, through forest to Stornotsand, Boda and Söderbyn. Here a visit to Singö church is a must. Then continue to Singö camping and take an afternoon coffee break.

Northern Vädö with fantastic limestone cliffs at Nothamn

Day trip on northern Vädö that e.g. takes you to Nothamn by the Åland Sea. Enjoy fantastic cliff formations in different colours and forms that remind of a petrified wood. Visit the old limestone quarry where the flora and fauna remind of those of Öland.

Return along the small roads along Vaddövikens bay through beautiful small-scaled farming landscape.

Day trip to Åland – Eckerö

Take an Eckerö Line ferry to Åland and go cycling in Eckerö.

The first ferry departs daily at 10.00 and you can have 5–6 hours cycling in Eckerö. During the peak season the last ferry from Eckerö departs at 20.15 local time.

Skärgårdsleden

Sunset tour

We have a special place that we show you with pleasure when you want to enjoy peace and quietness at sunset.
